

## Fearful Eyes

KadavriK

Deep in my soul... fighting hard  
Fearful eyes that i regard  
Feeding the deads, nothing to lose just my  
Lonleyness i'd like to abuse ... now!

My fearful eyes I regard  
The last to go when sorrows grow

I feel hate deep in my soul  
Fear tonight, good night to die

Breaking the rules, no respect  
Not knowing what I should expect  
So much I heard 'bout life in hell  
No will to suffer, so I hope I'll burn well

freakshow in a dead man's mind  
not hard to find  
see the actors pray, pray for voilence  
see the creature cry, cry for silence

Last chapter in the book of life  
The pages are cut by my own knife  
Don't care what you said, never thought I was wise  
Tears of blood cried by fearful eyes

My fearful eyes I regard  
The last to go when sorrows grow

I feel hate deep in my soul  
Fear tonight, good night to die

My fearful eyes I regard  
The last to go when sorrows grow

I feel hate deep in my soul  
Fear tonight, good night to die

Fearful Eyes!
