

## The Die Is Cast

KadavriK

Gun in my neck  
Men dressed in black  
I'm digging grave - "Just a trough"  
No this is for my funeral  
My skin is wet, the tears, the blood, the sweat  
In despair I cry as I could not say goodbye  
To the ones I love, but I will from above  
Glimpse of hope drowned in the mud  
Did I hear a shot?

Rain from the sky  
Where I will lie  
On my own - so alone  
Yes, I will forever and ever  
I will be strafed  
At Asbury's Ave  
The die is cast, I will not last  
'Till the break of dawn!

Losing my track with this gun in my neck  
I'm digging grave - "Not deep enough"  
God, I need a miracle!  
My skin is wet, the tears, the blood, the sweat  
In despair I cry as I could not say goodbye  
To the ones I love, but I will from above  
Glimpse of hope drowned in the mud  
Did I hear a shot?

Rain from the sky  
Where I will lie  
On my own - so alone  
Yes, I will forever and ever  
I will be strafed  
At Asbury's Ave  
The die is cast, I will not last  
'Till the break of dawn!  
The die is cast!

Rain from the sky  
Where I will lie  
On my own - so alone  
Yes, I will forever and ever  
I will be strafed  
At Asbury's Ave  
The die is cast, I will not last  
'Till the break of dawn!  
Then I heard a shot...
