

Too Many Times

Kai Tracid

Too many times you have been high
Too many times you ran away, no need to cry
Too many times your body lies awake
Too many times these pills you take

Too many times you've woken up depressed
Too many times you put your life to the test
Too many times you've taken this trip
Too many times you have slipped

Too many times your body can't take
Too many times you've made a mistake
Too many times you haven't realized
Too many times your mind became paralyzed
