

## Something Inside Of Me

Kai

I called you up tonite  
girl we dont talk.. anymore  
sometimes i fantasize..  
that you would walk, right through that door  
bridge:  
when i wake, your not there  
still i know, that you still care..

Something inside of me  
tell me you want me  
tell me you need me.. baby girl  
something inside of me  
tell me you need me  
tell me you want me.. baby girl

How can i treat you right?  
when you let my heart, just slip away (oh yeah)  
so come and do me right  
and i'll be the sun, that shines your way..

Girl i'll be there, for you baby  
now i know, that this much is true.. baby

Something inside of me  
tell me you want me  
tell me you need me.. baby girl  
something inside of me  
tell me you need me  
tell me you want me.. baby girl  
(2x)

I spend my nights, reading letters from you..  
going over, and on in my mind..  
i give my heart.. just for kiss from you  
coz i can, i know deep down inside..

A little something. something  
a little something. something
