

Admire You

Kaiser Chiefs

You said that stranger things have happened
I don't know why you're laughing
I wish I'd never asked
There must be something in the water
That's making it feel stronger
That's building to last

Do you admire me like I admire you?
Do you admire me like I admire you?

And I know it might be 'cause you're easy
Or just because you're into me
Or maybe 'cause you're new

There must be a combination of everything
'cause I haven't seen a lot of things
As interesting as you

Do you admire me like I admire you?
Do you admire me like I admire you?

And I thought you were a nervous wreck
And it turned out that you were
I heard you were a bag of nerves
And it turned out that you were
Turned out that you were
Turned out that you were

I thought that when you said you need me
You meant that you needed me
But you just knee'd me in the head

Do you admire me like I admire you?
Do you admire me like I admire you?

And I thought you were a nervous wreck
And it turned out that you were
I heard you were a bag of nerves
And it turned out that you were
Turned out that you were
Turned out that you were

Do you admire me like I admire you?
Do you admire me like I admire you?

And I thought you were a nervous wreck
And it turned out that you were
I heard you were a bag of nerves
And it turned out that you were
Turned out that you were
Turned out that you were
