

# Always Happens Like That

Kaiser Chiefs

Yeh! We plugged it in  
And we turned it on  
And we made it up  
As we went along

And it always happens like that

So we made a film  
Starring you and me  
Just hanging around  
Turned out to be a smash

And it always happens like that

You can do what you like  
But you can't do that  
You can say what you want  
But you can't say that  
You can go anywhere  
But you can't go there

That looks like a letter that I don't want to open

And we broke into  
The municipal pool  
And we turned it in-  
To a madrigal

And we made a vow  
To the holy cow  
And we set it up  
Just to knock it down
