

How Do You Feel About That?

Kaiser Chiefs

I'd take you down another two-year stretch
To shake it out of you like Etch-A-Sketch
It's not so hard if we stay in the shade
Out in the yard where we can learn a trade

And on the eight day man created God
'Cos no-one else would ever take that job
Me and my friends, we're sitting in the sun
Sweating buckets getting nothing done

How do you feel about that?
It's just me and my friends
How do you feel about that?
It's just me and my friends

The quick brown fox jumps over the lazy dog
The lazy dog will get the big pork chop
Just do enough for us to make ends meet
They'll lock us up and throw away the key
From me

How do you feel about that?
It's just me and my friends
How do you feel about that?
It's just me and my friends

You're acting funny like you just don't know me
You're looking at me like we don't go back at all
You're acting funny like you just don't know me
You're looking at me like we don't go back at all

How do you feel about that?
It's just me and my friends
How do you feel about that?
It's just me and my friends
How do you feel about that?
It's just me and my friends
How do you feel about that?
It's just me and my friends

(D'you feel about that?)
(D'you feel about that?)
(D'you feel about that?)
