

# Oh My God

Kaiser Chiefs

1. Time on your side that will never end  
The most beautiful thing you can ever spend  
But you work in a shirt with your nametag on it  
Drifting apart like a plate tectonic

R: It don't matter to me  
It's all I wanted to be  
It's a million miles from here  
Somewhere more familiar

2. Too much time spent dragging the past up  
I didn't see you not looking when I messed up  
Settling down in your early twenties  
Sucked more blood than a backstreet dentist

R: It don't matter to me...

\*: Oh my god, I can't believe it  
I've never been this far away from home  
And Oh my, god I can't believe it  
I've never been this far away from home  
And Oh my, god I can't believe it  
I've never been this far away from home  
And Oh my, god I can't believe it  
I've never been this far away from home

3. Great ruins wait for greater glory  
The only thing growing is our history  
Knock me down I'll get right back up again  
I come back stronger than a powered up Pac-Man

R: It don't matter to me  
Cos all I wanted to be  
Was a million miles from here  
Somewhere more familiar

\*: Oh my god, I can't believe it...
