## **Starts With Nothing**

## **Kaiser Chiefs**

It starts with nothing
And it ends in nothing
You start with nothing
And you leave with nothing
It'll start with nothing
And will end in nothing
You arrive with nothing
And you leave with nothing

You're on your own on the last train home Open your eyes you have arrived You're on your own again At the end

It starts with nothing
And it ends in nothing
You arrive with nothing
And you leave with nothing

Nobody knows where the money goes You are alive and a passerby And leave it all behind Never mind

It starts with nothing
And it ends in nothing
You start with nothing
And you leave with nothing
It'll start with nothing
And will end in nothing
You arrive with nothing
And you leave with nothing

Yes that is my final answer Yes that is my final answer

You're on your own on the last train home Another tunnel on the circle line With nothing up your sleeve As you leave

It starts with nothing
And it ends in nothing
You start with nothing
And you leave with nothing
It'll start with nothing
And will end in nothing
You arrive with nothing
And you leave with nothing
