

## Lies And Promises

Kajagoogoo

ake a walk to a quieter place  
And think of the thing I said would wait  
I can see unconsciously  
You promised me, you promised me

You come round here to throw a ploy  
With silly lines with silly toys  
Little things for little minds  
Amuse yourself in your spare time

Your promises, your promises  
Are your lies as good as your promises  
Are your lies as good as your promises

'Cos I believe in what you say  
I have to be so led astray  
But I will play the lovers fool  
By loving you, by loving you

Your promises, your promises  
Are your lies as good as your promises  
Are your lies as good as your promises
