

## On A Plane

Kajagoogoo

I thought you had a dreaming to fly  
Until I saw the doubt in your eye  
Tell you what I'll do, I'm gonna do, get on, get on out with you now  
I'll tell you what I'll do, I'm gonna do, travel on back with you now

On a plane, you make no sound  
You'll get your courage back again when we touch down  
On a plane, take my breath away  
I'll watch your courage come back again when we touch down

Fly with me, find peace in the clouds  
The laws of gravity can't hold me down  
Tell you what I'll do, I'm gonna do, get on, get on out with you now  
I'll tell you what I'll do, I'm gonna do, travel on back with you now  
Tell you what I'll do, I'm gonna do, get on, get on out with you now  
I'll tell you what I'll do, I'm gonna do, travel on back with you now

On a plane, you make no sound  
You'll get your courage back again when we touch down  
On a plane, take my breath away  
I'll watch your courage come back again when we touch down
