

The Betrayer

Kaki King

Please now just hear me out
Before you kill somebody now
Listen to what I say
Before you go and kill yourself
Somehow you've been exposed
Headquarters thinks the case is closed
You need to hit the road, they're on your trail

Again, I've become someone else, someone new
It's up to me if I live or die, too

I am your guardian, I am the only one who knows
Gonna get you to a safehouse where nobody goes
They know your face and all your names, that was our deal
They've put the borders on alert so don't get hurt

Again, I've become someone else, someone new
It's up to me if I live or die, too

I did this to you yes I did, I had my own life to save
I did this to you yes I did.
I did this to you yes I did, I had my own life to save
I did this to you yes I did.
I did this to you yes I did, I had my own life to save
I did this to you yes I did.

Again, I've become someone else, someone new
It's up to them, will they let me through?

Running on rooftops now, the great escape
Running on rooftops now
Running on rooftops now, the great escape
Running on rooftops now
Running on rooftops now, the great escape
Running on rooftops now
Running on rooftops now, the great escape
Running on rooftops now
