

# Down In Heaven

Kalan Porter

I don't know how I got here  
Somehow I got here with you  
You wanted to show me  
We started floating out of view  
And the earth is even smaller than I had guessed

And I wonder how everything's going down there in heaven?  
There's nothing I can see hanging over me  
And I wonder if angels aren't looking up at us from heaven?  
'Cause Ive never been, no I've never been so high

I, I've seen the fools jump  
Love never saved them or you  
But you how did you lift me past the point of gravity?  
I can't believe where you've taken me

And I wonder how everything's going down there in heaven?  
There's nothing I can see hanging over me  
And I wonder if angels aren't looking up at us from heaven?  
'Cause Ive never been, no I've never been so high

So high that I can't see the sun or find the ground  
So high that I don't want to come back down  
Yeah, yeah

And I wonder how everything's going down there in heaven?  
There's nothing I can see hanging over me  
Yeah, wonder if angels aren't looking up at us from heaven?  
'Cause Ive never been, no I've never been so high
