

Until You

Kalan Porter

I didn't think I was missing much at all
Wasn't prepared for love
Wasn't ready for the fall

But now I've found you
Everything's changed
Come summer, spring or winter
My love will stay the same

Now I believe in this love
I'm living
You brought me to life with the love
You're giving
Never knew love could be so true
Until you

Captivated in a space
Brought from far to a brand new place
You showed me things I never thought could exist
I don't remember what life was like before we kissed

Now that I found you
Everything's changed

[Chorus]
