

# Until You

Kalan Porter

I didn't think I was missing much at all  
Wasn't prepared for love  
Wasn't ready for the fall

But now I've found you  
Everything's changed  
Come summer, spring or winter  
My love will stay the same

Now I believe in this love  
I'm living  
You brought me to life with the love  
You're giving  
Never knew love could be so true  
Until you

Captivated in a space  
Brought from far to a brand new place  
You showed me things I never thought could exist  
I don't remember what life was like before we kissed

Now that I found you  
Everything's changed

[Chorus]
