

## Coming Back to Our Land

Kaledon

In our town  
Many wait Antillius,  
But he won't return

Their eyes search him,  
Tears start to fall,  
Hearts begin to cry

Fire in the wind  
Risks to fade away,  
But our fool is a phoenix rising from its ashes,  
From its ashes

Now that you know the truth,  
We must return to shine  
With Daeniel that guides us  
Scream his name, right now

Antillius said  
Daeniel should succeed him,  
To lead the reign to

A time of peace  
He will look from the  
Heavens in the skies

Fire in the wind  
Risks to fade away,  
But our fool is a phoenix rising from its ashes,  
From its ashes

Now that you know the truth,  
We must return to shine  
With Daeniel that guides us  
Scream his name, right now
