

## Demons Away

Kaledon

The battle starts again  
This time is very hard  
Victims for the reign  
Victims for the evil

I'm near to the reign  
Demons are with me  
I'm near to the city  
Demons are in me

Demons away, demons away  
I return to shine  
My soul now is free again  
Demons away

Martin hits my horse  
I am falling down  
With soldiers on my back  
Now I am on the ground

The holy water falls  
It falls on my face  
My soul return in me  
Demons away

Demons away, demons away  
I return to shine  
My soul now is free again  
Demons away
