

Great Night in the Land

Kaledon

On the top of the hill
The king scream: "victory"
We're near to the end
We're near to the light

Children of Kaledon
The wick is dead
evil troops too
Remain the last point

This is great night in the land,
Now we will be bless the black land,
This is the last point,
the last point of the war

In the earth of the shames
There are tons of beasts
And with the holy water
They'll come to the light

We've finded the way
We've killed the "Slave"
We'll bless the land
The land of the dark

This is great night in the land,
Now we will be bless the black land,
This is the last point,
the last point of the war
