

The Black Waltz

Kalmah

And she walks her way so treated
Leads away from the blessing she's earned
Gone away the meaning
Before the day against the morning

Down the path of the blind souls she walks
Through the dreams of mystery
Tryin' to reach the touch of human
Finds the way to the secret lands

Calling is guiding
Dazzling her instincts
Calling is guiding
Dazzling her instincts

Hymn of temptation keeps calling Makes her to believe the dream
She wants to lay to rest
And to take away her veil
Soon will feel the touch of the Taker And will see the eyes of
the
Caller
Can't resist the feeling
Hand in hand they will fall into sleep

Dancing with me
Forever the black waltz
Dancing with me
Forever the black waltz
