

## The Black Waltz

Kalmah

And she walks her way so treated  
Leads away from the bless she's earned  
Gone away the meaning  
Before the day against the morning

Down the path of the blind souls she walks  
Through the dreams of mystery  
Tryin' to reach the touch of human  
Finds the way to the secret lands

Calling is guiding  
Dazzling her instincts  
Calling is guiding  
Dazzling her instincts

Hymn of temptation keeps calling Makes her to believe the dream  
She wants to lay to rest  
And to take away her veil  
Soon will feel the touch of the Taker And will see the eyes of  
the  
Caller  
Can't resist the feeling  
Hand in hand they will fall into sleep

Dancing with me  
Forever the black waltz  
Dancing with me  
Forever the black waltz
