Hear my promise of blistering light Sowing a rose of obsidian My dear, I promise Death comes to all In a heartbeat only silence

Let's play with the fire
That runs in our veins
Trust in the might of a miracle
Now winter has come
And I stand in the snow
I don't feel the cold

And it's all that I will ever need To believe

One day I know we will meet again
In the shade of a life to die for
Watching the world through the eyes of a child in Elysium
Will I know you then?

Now bring down your fortress and swallow your pride Don't break in your moments of ignorance Existence will capture a spark of life Just a fragment

But it's all that I will ever need To revive

One day I know we will meet again
In the shade of a life to die for
Watching the world through the eyes of a child in Elysium

Will I find you there
In that darkness of the shadow that comes over all?
Dear friend, will I know you then?
Will I know you then at all?

One day I know we will meet again
In the shade of a life to die for
Watching the world through the eyes of a child
Will I know you then?

One day I know we will meet again
In a shade of a life to die for
Watching the world through the eyes of a child in Elysium
Will I know you then?
Will I know you then?
