

## Go On Without You (Shirley Murdock Song)

Kandi

Before you left me, I had it all  
You were with me, and that was enough  
He came along, and I forgot all about you  
I was a fool, but I'm wiser now

Because you left, my world came to an end  
Then you came back again, now I know  
There is no way that I can go on without you

A precious love, you took from me  
Opened my eyes, and now I can see  
A one night affair, can be so unfair  
But I paid the price, so I'm wiser now

Because you left, my world came to an end  
Then you came back again, now I know  
There is no way that I can go on without you

Because you left, my world came to an end  
Then you came back again, now I know  
There is no way that I can go on without you

Never again, will I let you go, now that you're home  
I missed you so, I love you forever  
'Cause you've earned my love  
And I just wanna say it's because of you, I'm wiser now

Because you left, my world came to an end  
Then you came back again, now I know  
There is no way that I can go on

You left, my world came to an end  
Then you came back again, now I know  
There is no way that I can go on without you  
I can't go on without you
