

# Pants On Fire

Kandi

[verse 1]

Eenie-meenie-miny-mo  
Caught yo' ass right by your toe  
Hanging out with some h-o  
Thought I wouldn't know  
Well it looked to me like you were free  
You told me that you'd be busy  
I'm not the one to wait around  
So this is how it all went down  
You were leaving at 12 o'clock  
I was leaving at 12:02 and that ain't cool  
But I was with some other dude  
So I dipped when I saw you  
You were leaving our favorite spot, baby  
Or so it was I thought, baby it's crazy  
But who's to blame when  
Game recognized game

[chorus]

You said that you were at your boy's house  
Pants on fire - liar, liar  
I said that I was sleep but I lied  
Pants on fire - liar, liar  
You said that you were working all night  
Pants on fire - liar, liar  
I said that I never called that guy  
Pants on fire - liar, liar

[verse 2]

Nanny-Boo-Boo  
You just mad cause I caught you  
Thought I was some type of fool  
So I did what I had to do, and  
I don't know how but you forgot  
When you're out in the club "Don't Think I'm Not"  
You're not the only one getting hot  
Yeah I'm blowin' up your spot  
You were leaving at 12 o' clock  
I was leaving at 12:02 when I saw you  
But how could you have an attitude  
When you do the same thing I do  
My intentions were to stop baby  
Before it went too far baby it's crazy  
But who's to blame when  
Game recognizes game

[repeat chorus]

[bridge]

We said  
We lied  
Who's wrong  
Who's right

[repeat chorus]
