

My Best Wasn't Good Enough

Kane

Let's say I'm feeling better
Let's say I'm feeling fine
Let's say I gave you all I had
And now I'm out of time
And it aches and it hurts and it burns
Oh it kills me

Tick, tock, you don't stop
You don't fade
You just stay
But I'll do it all again (2x)

Now don't you call me baby
Just don't pretend you care
Save your sorry for yourself
When Judas takes you there
And he will take you there

Once I really believed
There was nothing out there for the lost and lonely
But a voice in my head kept banging on my heart
Says you're not the only one

But it kills me

Tick, tock, you don't stop
You don't fade
You just stay
But I'll do it all again (2x)

I'll do it all again (7x)
