

Solitary Madness

Kane

In this old town I grew up strong
In this old town I waited
For the right times
And the wieght to carry on
In this old town I waited

I waited for her sympathy
How she kept my longing shaded
She kept my body aching for so long
In this old town I waited for so long

She carelessly awaited every night
Carelessly awaiting every time
It's this old town I hated
But this old town has made mw what I am

Yeah
I got the solitary madness comnig in
Yeah
I've got her solittary madness coming in
It's everything I waited for so long

In this old town I grew up strong
And how her tender touch instruced me
That nothing comes as easy as it goes
This old town has taught me all she knows

O yeah
She carelessly awaits me every night
Carlessly awaiting every time
And this old town has made me proud

Yeah I've got her solitary madness coming in
Yeah, Yeah
Solitary madness coming in
It's everything I waited for solong
It's everyting I waited for so long

Yeah
O bless that everlasting grace
Cause it's this old town like anything
This old town will give you what you gave
And this old town has made me strong

Yeah
Got her solitary madness coming in
Yeah
Solitary madness cmoing in
It's everything I waited for so long
It's everything I waited for so long
For so long
For so long
