

What If

Kane

Hold my head up, spin me 'round
Hold my head up, spin me 'round
Fill my head with silence
Till I'm over you and gone

There's no ending now you're here
Take me far away from me
Fill my head with silence
Till I'm over you and gone

So what if my heart won't wait
What if tonight I stayed?

Oh, what if I stayed here?
What if your arms would hold me for life?
What if you didn't need me?
Oh, what if I stayed here?

Hold my head up, spin me 'round
Hold me up until I'm found
And fill my head with silence
Till I'm over you again

So what if tonight I sailed away
What if I gave my life away
And what if I stumbled home

Oh, what if I stayed here?
What if my life came tumbling down
And what if you didn't see me?
So what if I stayed here
