

# Can't Hold Back

Kano

Come to me she calls me  
I really need your lovin'  
Come to me I need you right now)  
Come to me oh baby  
I wanna feel your lovin'  
Come to me I want you right now

She's got what it takes  
She can pin you to the floor  
She knows just what she'll do to you  
She's dynamite, dynamite

You can't hold back, don't fall for her she's coming  
You just can't hold back your lovin'  
You know you can't resist her

You can't hold back don't fall for her she's coming  
You just can't hold back your lovin'  
That girl is out to get ya

Come to me she calls me  
I really need your lovin'  
Come to me I need you right now  
Come to me oh baby  
I wanna feel your lovin'  
Come to me I want you right now

She's got what it takes  
She can pin you to the floor  
She knows just what she will do to you  
She's dynamite, dynamite

You can't hold back, don't fall for her she's coming  
You just can't hold back your lovin'  
You know you can't resist her
