Killing coz dats the onli language people listen to. Slingin coz thats all u can manage wen u've been into Prison Forbidden to listen wid riddims to bad rubbish we dnt know how 2 forgive we hold grudges, and we dnt how 2 recieve we throw punches and we dnt kno how to belive .. That there's too much drama, I feel like walking road with two strap and armo ur, all the care about is funds and garms, guns and arms. The best chik on ur arm, the best watch on ur wrist, u best watch ur wrist coz them boys are, best cop ur blist coz dem boys are, best tint ur whip like them boys cars. But I dnt wanna be cocking it bak and everywhere i go watching my bak, I jus wanna hop on a track do my thing not put on an act, I dnt eevn wanna put on bling, fuk up go to jail get put on a wing, got my own mind neva been put on a string, coz i jus wanna be the best, I dnt wanna do shows a nd be in a vest.. Live life to the fullest coz life can be taken away. Be careful with bullets coz bullets can easily spray. If he's ready to pull it u better be ready to react If its duck, buck or say FUCK and get back. Coz there's too much war, some need a strap jus to go to the corner store, but is it worth the stress baking in a vest, wen head shots can take in him the vest, take the bigger ste ps then u soon can take the bigger cheque, coz wen a gun goes off in ur head u could be heading for a clo se coffin, i dreading that my times up soon mite die with the 9's up soon, or do suttin dumb and get kiked out of the line up soon, coz im in two minds and i kno wots wrong and i know wots rite, and i kno im strong a nd i dnt jus say this shit wen im right ...
