Got to Rock On

It's no funny hanging around Winter seems so numbing Getting fat where I sit down Do you suppose it's old age coming

I get this feeling I'm no good for nothing Life has led me wrong Once in a while it makes it all worthwhile If I can sing this song

I got to rock on I can't be this way I'm hanging around but wait till music's in season That's when I'm high that is how I play And I do it the best that's all I need for a reason

Can't think straight, can't think at all Staring out the window Hear the band, I hear them call Everything will disappear and

I get the feeling I can conquer Anything gets in my way Well I don't need no doctor 'cause I Know exactly what I need today

I got to rock on I can't be this way I'm hanging around but wait till music's in season That's when I'm high that is how I play And I do it the best that's all I need for a reason

The sun beats down upon me and it looks As tough that spring has waited long enough to get here She knows that I must sing about her future Oh, sing about her past, I love to play my music And I try to make it last, sometimes summer comes too fast

I got to rock on I can't be this way I'm hanging around, wait till music's in season That's when I'm high that is how I play And I do it the best that's all

I got to rock on I can't be this way I'm hanging around wait till music's in season That's when I'm high that is how I play, hey, yeah

I got to rock on I can't be this way That's when I'm high that is how I play And I do it the best that's all I
