

Need

Kansas

I lost you a long time ago I tossed our love as far as I could
throw

I can't help feelin tentative and blind
I only wish that you could read my mind
I need to pitch it all into the wind
I need to face a wall that's cavin' in
I need to fall fall again I do need you

Can friends be lovers can lovers still be friends
What about the story when there ain't no happy end
Look around look around and tell me
what am I s'posed to do
To say goodbye'd be a big mistake after
all that we've been through

Some familiar face some familiar song
But those times have come and gone
Sometimes I feel like my memories are
only there to let me know
That bein' lonely is so damn slow
It's like a deep dark fever dream

I get surges I take a midnight drive
I'm goin' nowhere I don't care when I arrive
I got questions the kind that got no clues
I think I find the answer on the road that leads to you
