

## Peaceful and Warm

Kansas

I went driving through my old hometown  
It was Thursday the bright sun on the horizon  
I was surprised to see no one had burned it down  
It seemed so peaceful and warm

Floods of memories came back to me  
All the things we got away with when we were younger  
And I felt kind of like a refugee  
Like a scattered pile of leaves in a storm

Peaceful memory like lights on a Christmas tree  
Every hometown should be peaceful and warm  
Every father mother sister brother friend of the family  
Peaceful and warm

Somehow now and then didn't seem to blend  
'Till a farmer plowing his field waved hello  
Another working man doing the best he can  
I hope he is peaceful and warm

Peaceful memory plows in the green field sea  
Every hometown should be peaceful and warm  
Every father mother sister brother friend of the family  
Peaceful and warm

On the Kansas banks of the Muddy Mo'  
I threw rocks in the river and dreamed of running away  
In a wind of change only a father knows  
In a world so hectic so cold  
I guess my old hometown's kinda dead and gone  
Miss the sign on I-29 and you blow right by  
But it's a place I can go remember where I come from  
It will help me keep me peaceful and warm

Peaceful memory the only thing that's free  
Take them and try to be peaceful and warm  
Every father mother sister brother friend of the family  
Peaceful peaceful and warm
