

# We're Not Alone Anymore

Kansas

I got down on myself it looked like I was falling off the shelf

It was the wrong direction

I got way behind searching inside everybody trying to find  
My own reflection

But I got something to say so get out of my way

'Cause I'm not all alone anymore

Better sound the alarm stand your ground raise your arm

'Cause you're not all alone anymore

I got out of control I figured there was a lock on rock and rol  
l

And I lost the combination

But you better beware I'm used and abused I got nothing to lose

And I'm back from my vacation

But I got something to say so get out of my way

'Cause I'm not all alone anymore

Better sound the alarm stand your ground raise your arm

'Cause you're not all alone anymore

Stand up - We're not alone anymore

Stand up

Look up - We're not alone anymore

Look up

I got something to say so get out of my way

'Cause I'm not all alone anymore

Better sound the alarm stand your ground raise your arm

'Cause we're not all alone anymore
