

Turn it up!

[Kanye West:]

Step up in this bitch like (turn it up!)

I'm the one your bitch like

Yeah I'm the one your bitch like

And I be talkin' shit like

I ain't scared to lose a fistfight

And she grabbin' on my dick like

She wanna see if it'll fit right

That's just the wave

Waves don't die

Let me crash here for the moment

I don't need to own it

No lie

Waves don't die, baby

Let me crash here for a moment

Baby I don't, I don't need to own...

Sun don't shine in the shade (turn it up!)

Bird can't fly in a cage (turn it up!)

Even when somebody go away (turn it up!)

The feelings don't really go away

That's just the wave (yeah)

Waves don't die

Let me crash here for the moment

I don't need to own it

No lie

Waves don't die, baby

Let me crash here for a moment

Baby I don't, I don't need to own you

No lie

No lie

No lie

You set the night on fire

I'm still gon' be here in the morning

No lie

No lie

Ooh baby, ooh baby

You set the night on fire

I'm still gon' be here in the morning

No lie
