It's like I waited my whole life just to come set this off  
We in the middle of the game all bets is off  
And now we killin this movin in the best of cloth  
And now hard to get girls come extra soft  
We need an extra loft for all the people in here  
And I be chillin with the villains like a millionaire  
Yo killin each and every city bottle up in the air  
Celebratin' how we made it haters get it in the rear (we gone)

A yo AK told me I wouldn't recognize the old me  
Monetarily speakin' yo the world can't hold me  
Fall down givin' high fives to the clouds  
Only come down when I'm murdering the crowds  
Little - talk but I can't hear nothin'  
Like "wha" you don't really wanna to push the button cause when  
you  
Push it and we fired up people get wired up  
If you don't wanna get tied up then you better stay (stay, stay  
, stay, stay)

My whole crew so fresh—we don't know what to do  
R8s in Amsterdam how do u do?  
And I'm just startin with the actin a fool  
At Dreamland throwin big money - in the pool  
Then I fly to the dot side hang with the hot girls  
Put a ring on her turn into a dot girl  
Stop girl go ahead with your bad self

Got my city in my heart now we going for delf and gone (gone) g
