

Don't Go

Karel Zich

Many roads are widin', many roads are straight
Many roads lead to the wall
Someone goes too soon and someone goes too late
And someone runs and someone falls
I will never run so I will never fall
I won't get no mud in my face
I'm the one who answers each and every call
I'm the one who always says

Don't go, no baby don't go
The road may be not good, the road may be so bad
Don't go, no baby don't go
Spend this evening in your bed
Don't go, no baby don't go
Goin' is not easy, goin' may be rough
Don't go, no baby don't go
Stay here in the name of love

If you stay here, you can find a little traces
Of the traces of our love
I won't promise you nothing more than our two faces
Full of things you're dreamin' of
Number one is you and number two is me
And number three means both of us
You will miss and you'll never gonna be there
If you don't get off the bus

Don't go, no baby don't go
The road may be not good, the road may be so bad
Don't go, no baby don't go
Spend this evening in your bed
Don't go, no baby don't go
Goin' is not easy, goin' may be rough
Don't go, no baby don't go
Stay here in the name of love

Tell me where you gonna find your sweet tomorrow
If I'm not there behind you
If you don't find all the tears and all the sorrows
You can bet they will find you

When you find there ain't a single little land
That you would be anxious to see
You're gonna start to write love letters in the sand
And they'll be all addressed to me

Don't go, no baby don't go
The road may be not good, the road may be so bad
Don't go, no baby don't go
Spend this evening in your bed
Don't go, no baby don't go
Goin' is not easy, goin' may be rough
Don't go, no baby don't go
Stay here in the name of love
Stay here in the name of love
Stay here in the name of love
