

Everyone Who's Listenin'

Karel Zich

Just another song is comin' to an end
In a little while you won't care where it went
That's what makes me sad because I'd like to put
A little question to everybody if I could

How many roads can just one man walk
And who's gonna wait down the line
I'm not afraid to sit and have a little talk
Everyone who's listenin' is a friend of mine

Stay awhile 'cos I'm so busy lookin' back
Tryin' hard to pinpoint each and every track
When I find a brand new road for us to go
You'll be in it with me for I'll let you know

How many roads can just one man walk
And who's gonna wait down the line
I'm not afraid to sit and have a little talk
Everyone who's listenin' is a friend of mine

And if I got a chance to start my life anew
I'm not sure it's exactly what I'm gonna do
For if I try my best to give it what it takes
I'd just find the new ways doin' the old mistakes

How many roads can just one man walk
And who's gonna wait down the line
I'm not afraid to sit and have a little talk
Everyone who's listenin' is a friend of mine
