

# How Many Worlds

Karel Zich

How many worlds can be found  
It's another kind of question  
How much time can one man count  
When his time is short  
Life is just another ocean  
The earth is just another port  
Everyone here is livin' in  
His private little world

How many worlds can I find  
Where's that point I reach tomorrow  
What's the border of our life  
And where the line goes straight  
What is the laughter and sorrow  
Who believes in his fate  
Everyone tries to live his life  
And maybe it's too late

How many worlds we're missin'  
How many different songs  
Will you be livin' lovin' kissin'  
After I'm gone

How many worlds can I count  
Reachin' for the highest places  
Standin' two feet on the ground  
I feel kinda tied  
I can see it in your faces  
And it makes me wanna hide  
Everyone has his very own world  
And I'm too tired to fight

How many worlds we're missin'  
How many different songs  
Will you be livin' lovin' kissin'  
After I'm gone
