

I'm Gonna Strike A Match

Karel Zich

Walking down the street late at night
Makin' a little noise
Listenin' to my own footsteps in the fallin' rain
Searchin' in the darkness for a wonderful light
Waitin' for your voice
To tell me just a few words - anything to ease my pain

I'm gonna strike a match
And in its light I'm gonna find you
Anytime and anywhere you may hide
Maybe I'm gonna strike a match
And it's you I'm gonna catch
Somewhere in the darkest corner where I see the light

Walkin' round the little square lookin' just for you
Here, there and everywhere
Hopin' to find your little footprints in the dust
Sometimes I don't find your trace, sometimes I do
Baby I don't care
I'm gonna search till the end of the world if I must

Strikin' a match may help me or not
Life is more than fair
I know that one day I'll look around and you'll be there

I'm gonna strike a match
And in its light I'm gonna find you
Anytime and anywhere you may hide
Hey baby, I'm gonna strike a match
Now it's me who's walking right behind you
In your darkest corner you'll see my light
I'm gonna strike a match
Now it's me who's walking right behind you
In your darkest corner you'll see my light
