

# It's My Job

Karel Zich

Let me make some coffee and some tea  
It's my job  
Try to be as free as you can be  
It's my job  
Make yourself at home and stay here  
It's no time for feeling no fear  
Let's climb up the highest rock  
Then we can roll down  
Touched by the atmosphere

You know it's my job  
I try to stay on top  
I'm busy  
When I reach that point  
I try to rock the joint  
It ain't easy  
You know it's my job  
And if I'm down or up  
It's my bussines  
So I may sing all night  
And it will be all right  
If you leave me

I can play my guitar all night long  
It's my job  
I can sing some Elvis Presley songs  
It's my job  
But don't you put your ring on my finger  
Darling, let's make music not love  
Don't forget that I am just a singer  
And singer's life is tough

You know it's my job  
I try to stay on top  
I'm busy  
An' when I reach that point  
I try to rock the joint  
It ain't easy  
You know it's my job  
And if I'm down or up  
It's my bussines  
I may sing all night  
But it will be all right  
If you leave me

You're a guy and I can make you mine  
It's my job  
I pretend it's nineteen-fifty-nine  
It's my job  
The whole wide world is rockin' and rollin'  
Everybody's tryin' to sing  
But don't forget that you are just a friend of mine  
But Elvis is my King

You know it's my job  
I try to stay on top  
And I'm busy

When I reach that point  
I try to rock the joint  
It ain't easy  
You know it's my job  
And if I'm down or up  
It's my bussines  
I may sing all night  
But it will be all right  
If you leave me
