

Losing game

Karel Zich

In case you meet our buddies
don't you ever speak my name
don't let them know our love affair
was just a losing game.

Try to look like nothing
talk and your eyes will be so good
and tell them I just have been someone
that you never knew.

And if I travel around
I'll never be alone
but you're the one I never found
the one who missed my show
I'm not searching for the fortune
I'm not searching for the fame
I try to find just something
that won't be a losing game.

I lost so many feelings
not much more was left for me to count
so I kept on searching
at the end I took everything I found.

So now you know my story
I'm not amused or entertained
everytime I found your love
I played a losing game.

I lost so many feelings
not much more was left for me to count
so I kept on searching
at the end I took everything I found.

We can go all around now
in a circus like before
If we miss our love so badly
Maybe we can have some more
and if we do - don't tell nobody
don't you ever speak my name
I don't want no-one to know
we played another, just another
losing game.
