

# Still In Love With You

Karen Carpenter

I remember the first time  
I laid more than eyes on you  
We've been in love for a long time  
And I'm still in love with you

Well, I am so still in love with you  
Will you always understand  
I do not know what I would do  
Without you

I'm in perpetual motion  
I am always on the move  
You must have slipped me a potion babe  
'Cause I'm still in love with you

Well, I am so still in love with you  
Will you always understand  
I do not know what I would do  
Without you

You don't leave me any reason  
I don't need no alibies  
So don't ask me no questions  
Babe, I won't hand you any lies

Well, I am so still in love with you  
Will you always understand  
I do not know what I would do  
Without you

And you know that tomorrow  
Will be different than today  
We beg, steal and borrow  
But we always stay the same

Well, I am so still in love with you  
Will you always understand  
I do not know what I would do  
Without you  
(I'm still in love)

I am so still in love with you  
Will you always understand  
I do not know what I would do  
Without you  
(I'm still in love)

I am so still in love with you  
Will you always understand  
I do not know what I would do  
Without you
