

# I Got You

Kari Kimmel

I don't wanna miss a thing  
I got your back and I know you got me  
Gonna way, gonna way  
Away  
It may seem impossible  
It may seem like I'll never get there  
But I think, something's gotta change.

I know I'm gonna have to weigh  
Every mountain 'cause it seems so high  
And when you're by my side  
Push me on and never let me fall.  
Every challenge doesn't seem  
Too tough for someone strong enough to make it through.  
'Cause I got, I got you.  
Ooh woah oh  
La la la la la la  
Ooh oh oh.

I still feel a little bit scared  
That used to be me, but now  
Anymore, anymore  
No way.  
'Cause when you were next to me  
I feel like I can do most  
Anything, anything.

'Cause when I'm with you,  
I won't worry.

Every mountain 'cause it seems so high  
And when you're by my side  
Push me on and never let me fall.  
Every challenge doesn't seem  
Too tough for someone strong enough to make it through.  
'Cause I got, I got you.

Now I can make it by  
Oh, now I can run farther  
Than ever before  
As long as we are together  
I know that anything  
Is possible.
