

Makin' A Change

Kari Kimmel

Sweet child you better hold on
Don't let a thing come bring you down
Maybe there was a story
But baby come look at what you got now
It's not like before

You're makin' a change
You're not gonna wait
You got it all because he loves you
You're ready to face
Mistakes that you've made
You got it all because he loves you
Cause he loves you

You're just sitting there waiting
For you to mess up just like before
But this time's gonna be different
Cause baby that's not you anymore
You got a reason

You're makin' a change
You're not gonna wait
You got it all because he loves you
You're ready to face
Mistakes that you've made
You got it all because he loves you
Cause he loves you

Baby it's up to you to make him believe
Give him another chance
To show him that this is the way you feel

You're makin' a change
You're not gonna wait
You got it all because he loves you
You're ready to face
Mistakes that you've made
You got it all because he loves you

Yeah, You're makin' a change
You're not gonna wait
You got it all because he loves you
You're ready to face
Mistakes that you've made
You got it all because he loves you
Cause he loves you

Because he loves you
Cause he loves you, you, you, you
