

# To Make You Smile

Kari Kimmel

You're memorizing the flights, the trains, the numbers  
To get you away from here  
You got your suitcase all packed, don't know where your  
going  
But you know you can't stay here  
You settled into something plain  
But you need more color, need more change

If you wake up, and you're happy  
Baby it was worth it all  
Just to see you smile  
If you find out, it was crazy  
Baby, I'll be waiting here  
Just to make you smile

You got your habits, you've found your way of dealing  
So do what you gotta do  
Is it something you're running from  
Or could there be someone else you're running too  
You've got a past you cannot change  
So make you're future, don't be late  
Just go on your way

If you wake up, and you're happy  
Baby it was worth it all  
Just to see you smile  
If you find out, it was crazy  
Baby, I'll be waiting here  
Just to make you smile

You're gonna find out on your own  
As soon as you walk away from everything you know

If you wake up, and you're happy  
Baby it was worth it all  
Just to see you smile  
If you find out, it was crazy  
Baby, I'll be waiting here  
Just to make you smile

If you wake up, and you're happy  
Baby it was worth it all  
Just to see you smile  
If you find out, it was crazy  
Baby, I'll be waiting here  
Just to make you smile

Make you smile, yeah to make you smile  
I'll be waiting here  
Just to see you smile  
Make you smile, yeah to make you smile  
I'll be waiting here  
Just to make you smile

Make you smile
