

## Hold on

Kari Rueslåtten

You were the dancer in the dark  
found ways to seize a spark  
Even when the world came tumbling down  
You left this place with not return  
In a while I got to learn  
They had come to take you away  
Standing still in the faint sunset light  
I still see your shape

You  
You have to hold on

You were the dancer in the dark  
found ways to seize a spark  
Even when the world came tumbling down  
When all you see is gloomy days  
You tend to hide your face  
You will always be the same to me

I won't let them take you away this time, don't let go...

You...  
You have to hold on,  
You have to hold on

Tonight there's a storm coming  
This time it hits you so hard  
All you can do is long for tomorrow  
and your dreams will be made of dreams  
Standing still in the faint sunset light  
I still see your shape...
