

Rainy days ahead

Kari Rueslåtten

Hey my dear,
Can you hear, the rhythm in the air?
The chariot is ready now, take me anywhere
Riding out, fell the chill
My head against your back
There's not a single soul out there following out track
You gave so much away
Now I long to hear you say:

Rainy days ahead
I'm no longer scared
Can you feel, can you hear my heart beating when you're near?
The hurting fades away
Give us one more day...
Can you feel, can you hear my heart beating when you're near?

Close your eyes,
Make believe, you're not alone tonight
I will be a shadow on your side, a quiet light
You gave so much away
Now I long to hear you say:

Rainy days ahead
- I'm no longer scared
Can you feel, can you hear my heart beating when you're near?
The hurting fades away
Give us one more day...
Can you feel, can you hear my heart beating when you're near?

You gave so much away
Now I long to hear you say
