

Brightest Day

Karin Park

Come out of your house
I've been standing here for days
Come and wipe the rain out of my face
I've been out here for days
with my transisted radio high above my head
And I have music for your ears
I'm gonna wait here

CHORUS

It's raining down, but I'm shure it you come out
this will be the brightest day
The walk is too long, your mother needs you at home
but I say let's go anyway

I can take of my clothes
Run around here like a clown
Just to make shure you are having fun
I'm at your door again
And if you don't open up I'll be here till the bitter end
I have music for your ears
I'm gonna wait here

CHORUS

I say let's go, it's not too late
To see the fireworks in the rain
This would be the brightest day

Don't take it away from me
I'm here, I'm all for youHow can you resist me?

CHORUS

I know it's still raining
But what are you saying?
How long must I wait?
I'll never stop trying
Come out of your house, to see the parade
How long must I wait?
How long will it take?
The walk is too long and your mother needs you at home
Let`s go anyway
