

They are eating me up with their big jaws and there's a million  
snakes on the cold floor

I can feel their sticky breath in my neck and from a hole in the  
ground I hear a big roar

Legs, don't fail me stumble or fall I need you to stand it all  
Hips and waist don't leave me to crawl Show them like I was a dancer

Step right, step Step right, step The only thing I have in this  
world is the road where I choose to go so Step right, step

I am playing cards with a shit hand but I can tell a story like  
an old man I walk with a bleeding knee and a desperate mind I'm  
pushing forward to the bold land

Legs, don't fail me stumble or fall I need you to stand it all  
Hips and waist don't leave me to crawl Show them like I was a dancer

Step right, step Step right, step The only thing I have in this  
world is the road where I choose to go so Step right, step
