

## First Love

Karina

You're there for me, through all of my ups and downs  
And what I feel you always seem to know  
You find the words when I need comforting  
And dry my eyes, that's why I love you so

More than a friend you're my first love  
I can always depend on my first love

I feel like I have known you all my life  
I can't explain how close we are  
When something's wrong, you know how to make it right  
That's why you stay close to my heart

More than a friend you're my first love  
I can always depend on my first love

The first thought in my mind, the chill up my spine  
The melody in my heart, you are my very first love  
You're the sweet lullaby, my first kiss goodnight  
The beat in my heart, music, my very first love

More than a friend you're my first love  
I can always depend on my first love

With you in my life I'm not lonely at all  
And if there were tears you'd catch them all  
'Cause you know my pain and you know my joy  
There's no secrets between us only pretty piano chords

The first thought in my mind, the chill up my spine  
The melody in my heart, music, my very first love  
You're the sweet lullaby, my first kiss goodnight  
The beat in my heart, music, my very first love

I sing, I sing because I'm happy  
The music sets me free  
You're the sweet lullaby, my first kiss goodnight  
The beat in my heart, music, my very first love
