

Can I go crazy for you
And you go crazy on me
And I go crazy for you
Now tell me why, why, can we go crazy

We only got one life to live so we should live it
And I don't wanna look back and wonder what we could of been
And this feeling's taken over, you should keep it
We might never have this moment again

So let's go crazy like you threw a million dollars in the fire
So crazy like she's ready to go
Take my hand right now let's dance

Can I go crazy for you
And you go crazy on me
And I go crazy for you
Now tell me why, why, can we go crazy

We only got one night to show 'em how we do it
And I ain't worryin' about other people starin' at us
Let's make the most of every single minute
When it's good you could never get enough

So let's go crazy like I traded my bentley for a buick
So crazy like she found real love but then she lose it
Take my hand right now let's dance

Can I go crazy for you
And you go crazy on me
And I go crazy for you
Now tell me why, why, can we go crazy

Can we go crazy
Tell me why, can we go crazy
Tell me why, can we go crazy
Tell me why, can we go crazy

Like you just threw away your iPhone
Like I just let you go home alone
Like you just ran away with me
But right now we can be free because
We are together so just lettin' you know
This feeling won't ever let it go - oh
So Don't be afraid we are losing control
So take my hand right now let's dance

Can I go crazy for you
And you go crazy on me
And I go crazy for you
Now tell me why, why,
Can I go crazy for you
And you go crazy on me
And I go crazy for you
Now tell me why, why, can we go crazy
